5th Annual Brain Tumor Challenge Soccer Tournament

David Strickland has joined with The American Brain Tumor Association to present the 5th Annual Brain Tumor Challenge Soccer Tournament at Civitan Park in Johnson City, Tennessee on 21 June 2008 in recognition of all those who have been diagnosed with a brain tumor.

Brain tumors are an issue we all would like not to exist - but the reality is that they do. Brain tumors do not discriminate and do not tell when and how they are going to strike. Each year, over 190,000 people in the United States are diagnosed with a brain tumor. Although progress has been made, there is still so much that is not known. Your involvement can really make a difference.

All proceeds from the soccer tournament will benefit the research programs of the American Brain Tumor Association with the hope of finding a cure and saving someone's life.

To honor this family member, we are asking you to help make the 5th Annual Brain Tumor Challenge Soccer Tournament a success.
